TRIP FROM CLIFTON THROUGH VALLEY

Hon. Del M. Potter of Clifton, accompanied by W. J. O'Brien of New York City, T. M. Daniels and W. C. Stanley both of Los Angeles, spent yesterday in Safford. These gentlemen were here to look into the proposition of building a storage dam in the Frisco river near Clifton, that will furnish this part of the county with an ample supply of water and electric power.

Mr. Potter has been working on this proposition for a number of years and wherever he has gone in the interest of this work, has never let an opportunity pass to boost the Gila Valley by telling of the fine agricultural possibilities to be found here, and of the grandeur and beauty of the mountains surrounding it which contain a wealth of precious metals and timber. In order to substantiate these claims that he has made, Mr. Potter took these gentlemen on a trip through the valley yesterday morning and upon their return here they said that what they had previously been told by Mr. Potter, did not do the valley justice for they found that the real facts surpassed anything that he had said and that they were not prepared for the many surprises that they saw.

The party also attended the meeting of the highway commission that was held yesterday morning.

The trip from Clifton to Safford and through the valley was made by auto

the car being driven by Mr. Potter's son, Ray M. Potter.

Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paragon, codeine or other opiate is given is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.—Adv.
